1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Deepak Malhotra on December 3, 2004.
3. The application has been amended as follows:

Claims 51-62 (Cancelled).

### *Allowable Subject Matter*

4. The following is an examiner's statement of reasons for allowance: The prior art shows a lock for wing, where the lock includes a casing, a bolt, an operating member, first lock means, and blocking means (Williams). The prior art blocking means can be actuated from one side only of the wing to prevent operation of the operating member to retract the bolt. The prior art further shows second lock means at one side of the wing to de-actuate the blocking means. However, the prior art fails to show all of the above claimed features in combination with the blocking means being an angularly movable cam.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
